Testimonial from former Bascom analyst

This has been one of the most impactful experiences in my life so far. I am beyond grateful for your mentorship and time over this past year, and I truly can't say enough great things about this place. As much as I have learned from you teaching me, I have learned even more from you through your actions and the way you treat people as a leader. It is very apparent why you have experienced so much success, and I aspire to make an impact like you have someday.

Thank you for being so great to work for, and if there is ever any way for me to give back in the future, please don't hesitate to ask!

Best,
