Dear David Kim:

Thank you for your contributions to the Bascom Case Competition and your support of our career and personal development. The competition is easily the most memorable part of the MSRE program, and I learned so much going through the development process. I personally learned a lot about managing the design team and coordinating the physical environment with the financial aspects of a project. My career goals are to one day serve as the intermediate between the design, construction, and financial aspects of real estate development, so this project was a great opportunity to get a taste of that.

Further, the life-long connections I was able to make are priceless. My teammates are incredibly talented and fun individuals that I was lucky to spend many long nights with. I am incredibly grateful for the relationships I have built with each of my teammates, and I know they will be invaluable later on in my career. In a year where all our classes were online, this competition really gave me the professional contacts and relationships I was hoping to get from this program.

I would love to one day connect for a cup of coffee or lunch if we can find a time to get together. Please feel free to email me and we can coordinate. Thank you again for your continued support of our personal and professional development!

Sincerely,
